

SharePoint Services Overview

Gain from our Experience, Achieve your Goals for SharePoint

A partnership with AgreeYa Solutions is a pledge to the success of your SharePoint investment. As a Microsoft Gold Certified Partner, AgreeYa offers end-to-end SharePoint services and solutions, delivered either On-Premise or in the Cloud. Our SharePoint iLab (Innovation Lab) has extensive experience in delivering SharePoint engagements across industries including public sector, FMCG, real estate, BFSI, automobile, healthcare, hi-tech, manufacturing, telecom, retail, and utilities; for small to large organizations and government enterprises the world over. Whatever your SharePoint goals may be, AgreeYa's global expertise will help you realize them on time.

SharePoint Health Check

When it comes to SharePoint, we at AgreeYa understand that "One-size-fits-all" doesn't apply to all businesses. We provide a comprehensive SharePoint Health Check to ensure a robust environment that meets your business goals. Backed by years of experience, our SharePoint experts can quickly identify changes that will deliver improved performance, stability and the results that you always wanted.

In two-to four-weeks of specialized multi-point health check and audit allows us to review your specific needs and challenges, analyze your current environment, and outline the right solutions for the short and long-term goals. Our insights also include recommendations on the most suitable technical platform for your business, whether it's on premise, hosted, leveraging Office 365 or a hybrid approach.

Define & Plan

GAP Analysis

Define Roadmap

Solutioning

Following completion of the Health Check you will receive our recommendations and a clear, concise strategic derived from best practices and our expertise.

Development & Implementation

Success depends on the right combination of technology, strategy and implementation. We integrate these critical ingredients to develop a customized solution for your organization, building on out-of-the-box features to achieve increased ROI more rapidly.

› Governance & Policies

› Hybrid solutions

› Communities and Enterprise Portals

› Content Management Systems (CMS) and public-facing websites

› Integration with enterprise applications including ERP and CRM platforms

› SharePoint 2016 & Apps

› Pre-built, role-specific accelerators

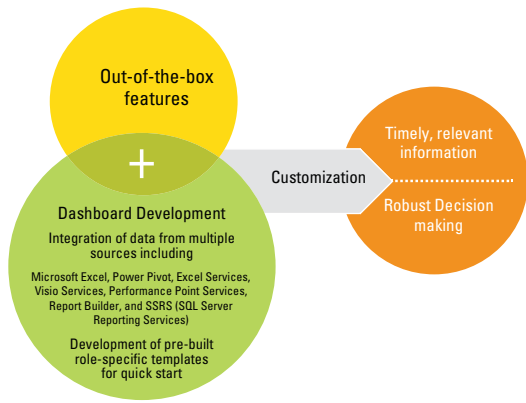

› Enterprise Content Management (ECM)

› Social Collaboration and Intranet portals

› Office 365 & SharePoint online based solutions

› QuickApps for SharePoint

› Workflow Models & Form Technologies

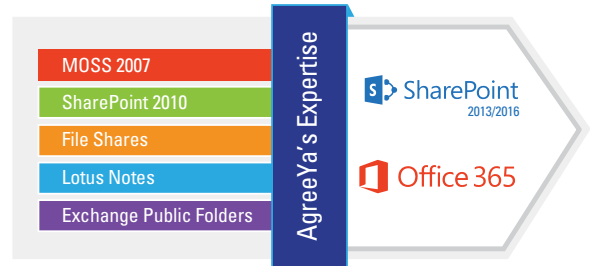

Business Intelligence

Business data is continuing to grow at an exponential rate and making sense of all the incoming information is now fundamental to a thriving business. AgreeYa will help you leverage capabilities such as SharePoint business intelligence center and Power BI for Office 365 ensuring that you get the insights you need. We can also develop pre-built, role-specific accelerators that will speed up implementation of BI dashboards. From project reports to sales projections, a SharePoint Business Intelligence solution can help your organization easily mine those valuable nuggets of critical enterprise data.

Migration & Upgrade

A seamless upgrade or migration to SharePoint is always the top priority for us to ensure minimal disruptions to your business, AgreeYa's expertise in Microsoft; SharePoint technology framework helps you avoid common pitfalls and transition challenges during a SharePoint migration or upgrade, including disintegration of data and content. We also help you put the right planning and strategies in place to deliver a smooth transition from legacy systems (SharePoint 2010, Exchange Public Folders, File Shares or Lotus Notes) to SharePoint 2013, SharePoint 2016 or Office 365 – SharePoint Online.

Managed Services for SharePoint

Infrastructure Assessment and Capacity Planning	Data Protection and Application Security
Virtualization or Cloud Computing Services	Performance Optimization
Rollout and Adoption	Disaster Recovery
