

Office 365 Services and Solutions

Drive Business
Productivity with MS Office
in the Cloud

AgreeYa's Services around Microsoft Office 365 Offer Easy Implementation & Improve Organization-Wide Productivity-Fast.

Office 365 is a completely flexible solution, packed full of tools to make teamwork easier. Whether your employees are working from home, the office or are on-the-go, Office 365 provides quick, easy and secure access to emails and calendars, Microsoft Office applications, instant messaging (IM), web conferencing and file sharing.

AgreeYa can help you quickly gain the benefits of these services without needing to go through the hassles of endless migration and upgrade cycles.

Microsoft Office 365 Suite Consists of:

Exchange Online

Hosted messaging solution that delivers email, calendar and contacts as an all-in-one package in the cloud.

SharePoint Online

Cloud-based collaboration and knowledge-sharing service for businesses of all sizes.

Skype for Business

Next generation communication solution that transforms business interactions from conflicted and disconnected communications to an engaging and collaborative experience.

Office Professional Plus and web apps

Best-in-class office productivity tools at your fingertips, available as a stand-alone application and on the web.

Power BI

Power BI empowers you to gather business insights from stored data and create stunning interactive visualization with reduced cost.

Azure Rights Management

Azure Rights Management is a protection technology, a cloud-based service that secures files and email, working across multiple devices-phones, tablets, and PCs.

Microsoft Teams

Microsoft Teams brings people, conversations, and content together to make collaboration easy.

Microsoft Planner

Microsoft Planner is an application on Microsoft Office 365 platform, used for planning.

Microsoft Office 365 Groups

A service developed for collaboration with your teammates while scheduling meetings, writing documents, working on project plans, creating spreadsheets, or sending email.

Microsoft Office 365 Video

Office 365 Video is built for companies to upload, share, and play back video messages and make collaboration swift.

Our Success Stories

Pioneers in Almond Industry Migrated SharePoint 2010 environment to Office365

The pressure to drive innovation that results in cost reduction, was the major challenge for the client. As part of AgreeYa offered solutions, SharePoint 2010 environment was migrated to Office365, to implement a flexible environment in terms of changing business requirements, standards and legal requirements, communication patterns, and work processes & reporting. It allows maintenance cost cutting, easier and faster implementation of new requirements.

A Government Body Engaged AgreeYa to migrate the intranet portal to SharePoint Online

Challenge was to migrate the existing portal and redesign the branding to enhance the look and feel. AgreeYa migrated 46GB of content & pages from existing MOSS 2007 SP2 to Office 365 to SharePoint Online, while also enhancing the portal branding.

A Leading Biotechnology Company Capture Competitive Intelligence (CI) and Streamline disseminate of information

The client faced a major organizational challenge, where its BAI Team needed to capture Competitive Intelligence (CI) and disseminate the information within the organization, among different sets of employees. AgreeYa followed a rigorous process of stitching multiple technologies together in a system, and offered the Competitive Intelligence (CI) portal as its result. It works by capturing all Competitive Intelligence through automated process, and storing it in this portal (under various groups), making it a reservoir of all the relevant information
